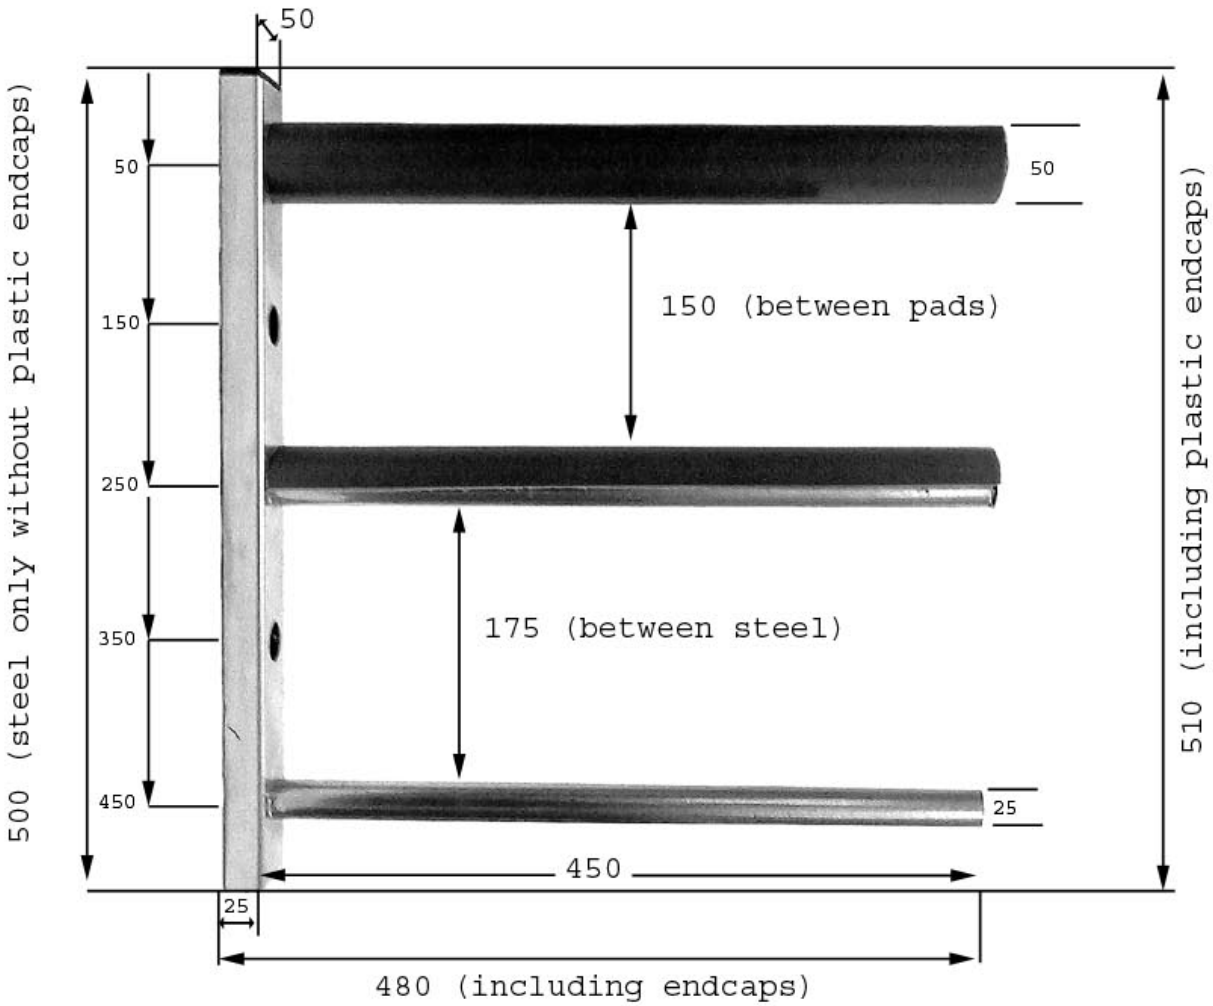
SPEC SHEET

Hotracks are hand made near St. Ives in Cornwall.
They are made from very strong ERW steel tube with a through welded construction for maximum rigidity and a tough baked on powder coat finish (currently silver). Finished off with plastic protective end caps and foam padding, they make a strong and secure home for your surfboards, snowboards and anything else you can think of really.

HOTRACKS DIMENSIONS IN mm



HOTRACKS come with THUNDERBOLT self tapping fixings for secure fixing to masonry walls

(The APT Thunderbolt Masonry Anchor is a self-tapping multi-substrate anchor, allowing one-piece fixing. The thread provides positive, safe anchorage, giving maximum grip with minimum insertion torque.)
